ALTO**

- Uninterrupted working provided by XtremeClean automatic filter cleaning
- Automatic power tool dust extraction for dust free working
- 99% Filtration for safe working
- PET filter for wet collection
- Heavy debris dry collection.

## **Judges' Comments**

*“By eliminating clogging, this product overcomes a major frustration encountered by users of such equipment, as well as addressing the issue of dust. The judges liked its ‘automatic’ setting, shutting down the machine five seconds after a connected power tool is switched off, reducing noise and power consumption, and re-starting when the tool is used again.”*
