TECHNOLOGIES

ATTIX 3

wet and dry vacuum cleaner

Ergonomic and sturdy handle

The machine can be moved and carried around in an easy and comfortable manner - even when full

Cable hook & accessory storage

Have everything to hand and store in a tidy fashion

Silent Operation

The low working noise level makes this machine the quietest in its class. A luxury feature for a comfortable working environment.

PET Coated Filter

Suitable for wet and dry without the need for change. Made from a PET material making it virtually indestructible. 99.95% efficient, keeping the dust inside the vacuum where it belongs!

ATTIX 350-01 shown

Superior suction performance

The power you need for a better cleaning result and less cleaning effort in a shorter cleaning time.

Softstart (360-21)

A gentle motor start up to keep the current low and prevents voltage irregularities.

Speed governor (360-21)

To control suction power and noise level and prevent sanders sticking to the working surface when dust extracting.

Filter Cleaning (360-21)

Push&Clean system to maintain full suction performance. See below for further details.

FILTER CLEANING SYSTEM

Push&Clean Filter Cleaning System

Push&Clean filter cleaning technology

The Push&Clean technology allows fast and simple cleaning of the filter cartridge. When you block the fitting for the air inlet or the hose and push the filter cleaning button, the surrounding air enters the container, passing through the filter cartridge in the opposite direction. The dirt is blasted off the filter and the suction performance is high once more. A comfortable and powerful yet gentle way of cleaning the filter.

OPTIONAL ACCESSORIES (see product catalogue for further accessories)

Accessory Net

For easy storage and transportation of accessories. The net can be mounted on the vacuum. - 302000524

Exhaust Air Collector

Removes vacuumed air, can also be used to blow out dirt and dust from hard to reach places. -302001158

Vacuuming Kit for -21 model

includes crevice nozzle, brush nozzle, universal nozzle, professional floor tool, extension tubes and 3 metre hose.- 20000252

Airbox (For -21 models)

When connected to the Auto On/Off receptacle on the vacuum, and to a pneumatic tool. The airbox turns the machine on/off automatically with the tool. - 302001192/302001474
