AERO SERIES

Consumer wet and dry vacuum cleaners

AERO 25-21

AERO 20-01

- **Wet and Dry Cleaning**
Suitable for vacuuming dust/ debris or spillages quickly and effectively.
- **Powerful performance**
The closest you get to industrial equipment at a consumer price. High performance in a small package with powerful suction and a huge working capacity.
- **Easy To Use**
Just plug in and go, excellent mobility and stability prevents tipping with 2 castors and 2 wheels.
- **Accessory Storage**
Excellent design principles ensure that all accessories can be stored on-board in the accessory holder.
- **Cable Hook**
For efficient storage and movement.
- **Auto On Off Power Socket**
Enables the vacuum to be used when connected to a power tool to remove dust at source. (AERO 25-21 only)

PUSH&CLEAN FILTER CLEANING

Push&Clean

Filter Cleaning System

Enables the fast and simple cleaning of the filter. When the air inlet fitting is blocked by the users hand and the filter cleaning button is pushed the surrounding air enters into the container, passing through the filter cartridge in the opposite direction. Any dirt is blasted off the filter and the suction performance is high again.

OPTIONAL ACCESSORIES (see product catalogue for further accessories)

House Kit

Includes - radiator brush nozzle, brush nozzle and universal nozzle.

Auto Kit

Includes - suction brush, rubber diagonal tube nozzle, and universal nozzle.

Filter Bag Set

Set for use with all AERO Vacuums includes 4 x filter bags and 1 x water filter.

Accessory Organiser

Can be attached onto the machine for convenient storage of nozzles, tubes and tools.
